

Parent Resources

Montgomery Intermediate School has adopted the philosophy of "leadership development" which encourages each student to develop the leader within themselves. This philosophy uses the 7 Habits of Highly Successful People as the focus for its implementation.

Recommended books for families of "tweens" and teens:

The Leader In Me by Stephen Covey

The 7 Habits of Highly Successful Teens by Sean Covey
and its personal workbook

The 5th grade year is one of many exciting developmental changes for our tweens. Unfortunately, it can also be a time when bullying issues can become problematic. The faculty and staff are vigilant about teaching our students effective coping strategies when they find themselves in the role of a bully, a victim, or a bystander. Parents are often looking for information to help their child navigate these issues. One beneficial website is www.stopbullyingnow.hrsa.gov

The number of American children diagnosed with an Autism Spectrum Disorder is rapidly increasing. If you have a child with one of these disorders or if your child has a friend with one of these disorders, you may find helpful information at www.autismspeaks.org

Montgomery County Youth Services is a private, not-for-profit organization committed to working with youth and their families through social service programs to create a positive atmosphere and to develop a secure environment. MCYS offers many programs for youth and their families facing various situations.
