

TEA REPORT CARD

Each year the Texas Education Agency (TEA), the governing body for all public schools in Texas, rates each campus on a variety of measures. A few of these measures include students' overall scores on the State of Texas Assessments of Academic Readiness (STAAR), academic progress of students from one year to the next, and how well we close the performance gaps. TEA sets a target score for each of the indices and an overall rating of Met Standard or Improvement Required.

We are very proud of the hard work of our students, teachers, and parents whom support their child's education. The staff at KES will continue to do our best to ensure the progress of all students in all grade levels. We diligently implement and supplement the Montgomery Aligned Curriculum (MAC) in order to ensure academic success for all students. Please see the linked TEA report card for Keenan Elementary.
