Hello again! I just wanted to make sure everyone received the important message that Dr. Rees sent out to our MISD parents today.

Dear Parents of MISD Students:

I trust this email finds you and your family well and enjoying your last Sunday evening of Spring Break! On behalf of the MISD School Board and our entire Staff, I want to thank you for your continued support as we start our remote learning journey together this week. It will be a new adventure for all of us, so don't stress over it too much! We realize you are not teachers and we simply want to provide you and your student learning options and opportunities for them to continue their education during this strange hiatus. We will continue to perfect this new instructional model over the next few weeks as we learn and grow together. So, please be watching for important information this week from your child's teachers and principal. Also, if there is anything we can do to help you and your family during this pandemic, please do not hesitate to reach out and ask.

With the increased availability of testing for COVID-19, Montgomery ISD officials continue to learn of confirmed cases within our school community, including individuals associated with Lake Creek High School and one MISD transportation department bus route transporting students to/from Keenan Elementary. The Montgomery County Health Department has already contacted individuals who they determined may have been at a higher risk of being exposed to individuals with confirmed cases. Montgomery ISD will continue to cooperate with state and local officials in providing information necessary to contact individuals who may have been exposed to a confirmed case of COVID-19. MISD is relying on the expertise of the Health Department and their epidemiologists in making the determination as to who may have been exposed and is not interfering with the Health Department's identification and notification process. If you do not receive a call from the Health Department, you or your child are not currently identified by the Health Department as having a high risk of exposure from a known case. As the virus continues its spread nationwide, we encourage you to be vigilant in

following the Center for Disease Control (CDC) social distancing and hygiene recommendations. Please visit the Montgomery County Health District, Texas State Department of Health Services, and the CDC websites for information on how to seek treatment for yourself or a loved one who may become ill and when to contact a healthcare provider.

Thank you for being awesome, caring, and compassionate parents! Please continue to stick together, support one another, and most importantly take care of yourself and your family during this unprecedented time in our Nation's history.

Sincerely,
Beau Rees
Superintendent of Schools
Montgomery ISD

Please let us know if we can help in any way. TOGETHER is better!!
Mallory Kirby, Principal of KES
